PROACT PHARMACY BENEFIT MANAGEMENT

Advantage Formulary

Janaury 2027 – Exclusions

The excluded medications shown below are not covered. In most cases, if you fill a prescription for one of these drugs you will pay the full retail price. If you're currently using one of the excluded medications, please ask your doctor to consider writing you a new prescription for one of the preferred alternatives. Additional covered alternatives may be available so please consult with your doctor. As prescription plans vary, not all drugs listed as alternatives may be covered by your plan. Grandfathering will not be provided for any excluded medications.

PLEASE NOTE: Brand-name drugs may move to non-formulary status if a generic version becomes available during the year.

Generic Medications are listed in lower case letters.
Example: ibuprofen

Brand Medications are listed in upper case letters.
Example: AJOVY

For the most current listing of covered medications or if you have questions, please visit **www.proactrx.com** or call the ProAct Help Desk at **1-877-635-9545**.
